PROFILE SUMMARY

As a passionate Laravel developer, I bring extensive experience in building scalable web applications. Proficient in PHP, MySQL, HTML, CSS, and JavaScript, I specialize in writing clean, efficient, and maintainable code. Leveraging Laravel's powerful features, I deliver high-quality solutions that enhance user experience and meet business needs.

WORK EXPERIENCE

WORK 24 Ahmedabad, Gujrat   APRIL 2024 - DEC 2024

1. Lawyer site project

Designed and developed the website **https://samirsiddhapuria.com** using HTML,CSS,Bootstrap overseeing all aspects of the project including design, development, and deployment. Managed the project to ensure timely delivery and a responsive, user-friendly design.

2. Tapkonek website project

Designed and developed a comprehensive website for https://tapkonek.com, overseeing the entire project from concept to live deployment.

3. Hana website project

Developed a dynamic website using HTML, CSS, Bootstrap, JavaScript, and Laravel. It features a responsive design and an admin panel built with Hana for efficient content and user management. Focused on scalability and modular code for future enhancements.

D S Infoway Rajkot, Gujrat   JAN 2025 - PRESENT

1. Dayanand website project

Developed a Laravel e-commerce website with Vue.js for dynamic front-end and back-end integration. Managed stock, calculations, and user data via the admin panel, ensuring a seamless, user-friendly experience

2. SmileSync website project https://www.smilesync.app/

- Designed and developed a complete web application for a dental aligner treatment platform, SmileSync.
- Created the full-stack solution including front-end design, back-end development, and APIs for both doctor and patient sides.
- Developed a custom **API** for the patient-side application, ensuring seamless integration with doctor-side functionalities.
